Professional Summary

Java Backend Engineer with 4+ years of experience building scalable microservices using **Java, Spring Boot, and REST APIs**. Experienced in **cloud-native development (GCP)**, performance optimization, and delivering reliable, high-quality systems in Agile environments.

TECHNICAL SKILLS

Programming: Core Java (8/11/17/21), Data Structures & Algorithms, Collections, Streams, Multithreading, Executor Framework
Backend & Frameworks: Spring Boot, Spring MVC, Spring Security, REST APIs, JPA, Hibernate, OpenAPI/Swagger, JUnit 5, Mockito
Architecture & Messaging: Microservices, Event-Driven Architecture, Apache Kafka, JWT, RBAC, HikariCP
System Design: High-Level Design (HLD), Low-Level Design (LLD), Scalability, Resiliency, Distributed Systems, Performance Optimization
Enterprise Java: J2EE Architecture, Servlets, JSP, MVC Pattern
Cloud & DevOps: GCP (Logging, Monitoring), AWS (S3, EC2, RDS, SQS), Docker, Jenkins, CI/CD Pipelines, Observability, Log4j
Databases: MySQL, Oracle DB, IBM DB2, SQL, Data Modeling, Indexing, Query Optimization
Tools: Git, GitHub, GitLab, Maven, Postman
Engineering Practices: OOP, SOLID Principles, Design Patterns (Factory, Strategy, Builder), Clean Architecture, TDD, Agile/Scrum
AI-Assisted Development: GitHub Copilot, Cursor IDE, Agentic AI

WORK EXPERIENCE

Tata Consultancy Services (TCS) — **Jan 2023 – Present**
Java Backend Engineer — ***Noida, India***

Government e-Marketplace (GeM) | Java, Spring Boot, OpenAPI

- **Modernized India's largest public procurement platform (gem.gov.in)** handling transactions exceeding **3+ lakh crore**.
- Designed and scaled **Spring Boot microservices** enabling onboarding of **1M+ government users**.
- Defined **OpenAPI 3.0 contracts** across **15+ modules** ensuring consistent integrations.
- Used **Agentic AI and GitHub Copilot** to reduce boilerplate development by **40%**.
- Improved system performance via **JVM G1GC tuning**, reducing latency spikes by **35%**.
- Built a **Drools-based Rules Engine**, reducing manual intervention by **50%**.

Walgreens Boots Alliance | Java, Hibernate, Jenkins

- Reduced production downtime by **60%** through proactive monitoring and fixes.
- Integrated **Worldpay payment gateway**, decreasing failed transactions by **90%**.
- Developed scalable payment services across **8+ microservices**.
- Increased test coverage to **85%** using **JUnit 5 and Mockito**.
- Automated **CI/CD pipelines** with Jenkins and Docker, reducing release cycles by **40%**.

Carasoft | Spring Security, Kafka, JWT

- Redesigned notification system, improving engagement by **40%**.
- Implemented **RBAC and JWT authentication**, reducing access issues by **90%**.
- Enabled **event-driven communication using Kafka**, improving system resilience.
- Enhanced observability using **Log4j structured logging**.

Tech Mahindra — **Aug 2021 – Sep 2022**
Associate Software Engineer — ***Noida, India***

Mountain Crew | DB2, MySQL, Multithreading

- Improved processing speed by **50%** using **Fork-Join and Executor Framework**.
- Optimized database performance by using **HikariCP** and query tuning.
- Reduced MTTR by **30%** through effective log analysis in **GCP Logging**.
- Enhanced query efficiency by **50%** via indexing and SQL optimization.
- Collaborated in **Agile ceremonies** including code reviews and sprint planning.

EDUCATION

Dr. Akhilesh Das Gupta Institute of Technology and Management, New Delhi — 08/2016 – 11/2020
Bachelor of Technology - Computer Science Engineering; GPA: 7.63/10
