

Nishant Raj

4.7 Years — Java — Spring Boot — Microservices — Kong — Kafka — Immediate Joiner

New Delhi, India | +91-9311238361 | nishant.read@gmail.com | [LinkedIn](#) | [GitHub](#) | [LeetCode](#) | [GFG](#)

Professional Summary

Java Backend Engineer with **4.7+ years of experience** designing scalable distributed systems using **Java, Spring Boot, REST APIs, and Microservices**. Experienced in building **event-driven architectures, high-performance backend services, and cloud-native applications**. Strong background in **system design, SQL optimization, CI/CD pipelines, and production system reliability**.

Technical Skills

Programming: Core Java (8/11/17/21), Multithreading, Collections, Streams, Executor Framework, Data Structures

Backend & Frameworks: Spring Boot, Spring MVC, Spring Security, J2EE, REST APIs, JDBC, JPA, Hibernate, Swagger/OpenAPI

API Management: Kong API Gateway, Rate Limiting, Request/Response Transformation, JWT & Key Auth Plugins, Service/Route Configuration

Integration & Cloud-Native: Apache Camel, Enterprise Integration Patterns (EIP), Quarkus

Architecture: Microservices, Distributed Systems, Event-Driven Architecture, System Design (HLD/LLD)

Databases: MySQL, IBM DB2, PostgreSQL, MongoDB, SQL Query Optimization, Stored Procedures

Batch & Data Processing: Java Batch Applications

Cloud & DevOps: AWS (S3, EC2), Docker, Jenkins CI/CD, GCP Monitoring

Messaging: Apache Kafka, Message Queues

Tools: Git, Maven, Jenkins, SonarQube, JIRA, Postman, IntelliJ

Operating Systems: Linux, Unix

Languages: Java, SQL

Engineering Practices: OOP, SOLID Principles, Design Patterns, Agile (Scrum, Kanban), SDLC

Work Experience

Futops Technologies India Pvt Limited

May 12, 2026 – July 30, 2026

Senior Software Engineer — Gurugram, India

IndiGo (InterGlobe Aviation Ltd)

Java, Apache Camel, Quarkus, EIP, OpenShift

- Building a **Camel/Quarkus-based integration pipeline** for automated airline seat assignment, orchestrating Kafka messaging, Navitaire API calls, and passenger booking (PNR) data processing.
- Migrating legacy **C# business logic to Java**, translating LINQ operations and rule sets into Java Streams and Camel routes to ensure functional parity.
- Diagnosed and resolved data-propagation and payload-parsing defects across multi-hop Camel routes, including exchange-property propagation and JSONPath-based nested payload extraction.
- Wrote and debugged **JUnit 5 integration tests** using **AdviceWith**, **MockEndpoint**, and **ProducerTemplate** to validate route behavior under failure and async aggregation scenarios.

Tata Consultancy Services (TCS)

Jan 4, 2023 – May 1, 2026

Java Backend Engineer — Noida, India

Government e-Marketplace (GeM)

Java, Spring Boot, Kafka, Spring JPA, AWS

- Developed scalable **Spring Boot microservices** powering India's public procurement platform handling **3+ lakh crore transactions**.
- Designed and implemented **REST APIs** and integrated with external systems.
- Improved performance using **JVM tuning, SQL optimization, and multithreading**.
- Built database-driven modules using **JDBC, JPA/Hibernate, and optimized SQL queries**.
- Deployed backend services on **AWS (EC2, S3)** in a distributed architecture.

Walgreens Boots Alliance

Java, Hibernate, JPA

- Developed backend services supporting **payment processing and transaction systems**.
- Improved production stability reducing downtime by **60%**.
- Increased automated test coverage using **JUnit and integration testing**.
- Automated **CI/CD pipelines** using Jenkins and Docker.

Carasoft

Spring Security, JWT

- Implemented **RBAC authentication** and JWT security architecture.
- Built **event-driven microservices** using Apache Kafka.

Tech Mahindra

Aug 24, 2021 – Sep 22, 2022

Associate Software Engineer — Noida, India

Mountain Crew

Java, DB2, MySQL, JDBC

- Improved backend processing performance by **50%** using multithreading and executor framework.
- Optimized SQL queries and indexing improving database response time.
- Built backend components interacting with **DB2 and Oracle systems**.
- Reduced MTTR by **30%** through log analysis and production debugging.

Education

Dr. Akhilesh Das Gupta Institute of Technology and Management

Bachelor of Technology – Computer Science Engineering

2016 – 2020
